Shooting ball is one of the most successful and popular competitive and recreational sports in the world. It is **fast**, it is **exciting** and the action is **explosive**. Yet Shooting ball comprises several crucial overlapping elements whose complimentary **interactions** render it unique amongst rally games.

In recent years the SBFi has made great strides in adapting the game to a modern audience.

SHOOTINGBALL IS A COMPETITIVE SPORT

Competition taps latent strengths. It exhibits the best of ability. The rules are structured to allow **all** of these qualities.

GAME CHARACTERISTICS

Shooting ball is a sport played by two teams on a playing court divided by a net. There are different versions available for specific circumstances in order to offer the versatility of the game to everyone.

The object of the game is to send the ball over the net in order to ground it on the opponent's court, and to prevent the same effort by the opponent. The team has only single hits for returning the ball but if a attacking proper shoot hit the net the team has maximum three hit for returning the ball.

The ball is put in play with a service: hit by the server over the net to the opponents. The rally continues until the ball is grounded on the playing court, goes "out" or a team fails to return it properly.
